The Island City Academy learning model will have staff and students create an Integrated Learning Collaborative that includes:

- ★ Individual career development and planning
- ★ STEMS skills and knowledge
- ★ A project/place based learning environment
- ★ Partnerships with businesses and organizations to allow job shadowing, apprenticeships, and other real world career training
- ★ Partnerships with other educational facilities to expand opportunities
- ★ Leadership and entrepreneurial training
- ★ Public speaking and service learning opportunities

Please answer the following questions below. These answers are not used for enrollment selection, as it is a lottery process. We find these questions can be helpful for both instructors and parents in multiple ways. Students may seek assistance in answering questions if needed. You may use additional paper as needed as well.

Please tell us why you think the ICA best fits your needs as a student.

Please tell us about your career interests and goals.

Please tell us about your interests in the STEMS (Science, Technology, Engineering, Mathematics, and Sustainability) fields.

Please tell us about your experience and abilities to work independently.

Please tell us about your experiences and abilities to work with others.

**\*An application is not fully complete until the student and parent(s)/guardian(s) have attended either a public informational meeting or have met privately with the instructor of the school for which they are applying. ALSO, if you are open enrolling from outside of the district, there is paperwork that needs to be completed in the district office.**

Please choose one of the following options for a parent meeting:
